

Mitas announces a new member in their adventure tyre family: ENDURO TRAIL-XT

- **The new ENDURO TRAIL-XT adventure sports tyre available from June 2024**
- **Designed for 70% off-road / 30% on-road performance ENDURO TRAIL-XT is available in two different versions – Standard and Dakar**
- **The M+S rated new rear tyre is a perfect match with Mitas ENDURO TRAIL-XT+ front tyre, together handling the most challenging terrain without sacrificing on-road comfort and durability**

In 2024, Mitas will welcome a new member of its adventure tyre family: the ENDURO TRAIL-XT. The new tyre comes to the market as a rear fitment, forming a top combo with Mitas ENDURO TRAIL-XT+ front tyre for perfect handling in all kinds of terrain.

Gustavo Pinto Teixeira, Head of Mitas Motorcycle tyres, says about the new Mitas adventure tyre: “The ENDURO TRAIL-XT is designed for modern adventure riders who love to explore off-road trails but don’t want to sacrifice comfort and durability when hitting the roads.”

Thanks to its scoop-shaped block tread pattern and unique compound formulation, the ENDURO TRAIL-XT tyre delivers impressive performance on muddy trails and tough gravel roads while giving a smooth ride on asphalt roads and high-speed motorways. Classified as M+S, with up to T-speed rating and bi-directional, the ENDURO TRAIL-XT tyre is designed to guarantee riders top off-road performance and long-lasting durability with easy handling and excellent stability on tarmac transfer sections.

This newest Mitas tyre will be released in June 2024 in two different versions: Standard – for the best all-around performance in any weather and Dakar – with its Ultra Heavy-Duty compound for maximum durability and a reinforced carcass making it virtually puncture proof.

Press Release

27.05.2024
